VERVE Gallery of Photography is pleased to present *Magnum*, our summer exhibition. Magnum features a collection of renowned images produced by photographers from the illustrious cooperative Magnum Photos. Magnum Photos is a member-owned cooperative known for photographs that chronicle the world, its peoples, events and personalities.

Magnum Photos was formed by a small group of photographers including Robert Capa, Henri Cartier-Bresson, George Rodger and David "Chim" Seymour at the end of World War II. Each founding photographer had been scarred by the war, and they shared a collective desire to see and photograph the post-war world, as well as to document the changes that resulted from World War II. Magnum Photos reflected the founders' fierce independence in both personal and professional realms. This idiosyncratic mix of reporter and artist continues to define Magnum Photos as its members report what they observe of the world in a manner that reflects both a powerful individual vision and superb creative achievement.

The *Magnum* Exhibition is on view at VERVE Gallery from June 26th through August 22nd, 2009. The **Opening Reception** is from 5:00pm to 7:00pm on Friday evening, July 10th, at VERVE Gallery.
